# Heavy Duty Park ECV

## Tackling Outdoor Destinations with Ease

Theme Parks | Museums | Zoos | Stadiums | Parks | & More

### Rugged, 4-Wheel Vehicle with Impressive Turning Radius

Tried-and-true, the Heavy Duty Park ECV from VENU+ caters to venues that span across acres. This ECV has long-lasting battery life and a standard reach of 35 miles per full charge. Safety features include a dual-brake system, seat sensor for auto-shutoff, programmable speed governor, stainless steel bumpers and rugged tires. Along with a turning radius that beats most three-wheel scooters, numerous guest convenience features round out this staple fleet mobility vehicle.

### ✔ Maximize Your Fleet Mobility

When you combine the right mobility products with the right inventory tools and technology, you save money and increase profitability. Our experts will examine your business needs and recommend the ideal equipment mix and comprehensive maintenance plan to unlock the full potential of your mobility fleet.
